

## Helmets Worn by German War Lords on Exhibit at Methodist Centenary Celebration

THREE Helmets, absolutely guaranteed to have been worn by the former Kaiser William of Germany, Von Bethmann-Hollweg and General Ludendorff, will be on exhibition in Columbus, O., as a part of the Methodist Centenary Celebration, June 20 to July 13. They were brought out of Germany during the revolution by Lowell Thomas, world traveler and explorer, whose travelogues will be given in Columbus as a feature of the celebration.

Thomas entered Germany at this most critical period, without pass-

ports or authority of any kind. To do this he was forced to hide out for days on the border. He was turned back twice, but on his third attempt succeeded in getting past a Swiss guard. He made some wonderful pictures in Berlin, showing street riots and the general chaos of the city at that time.

In addition to these views and incidental lectures, Mr. Thomas will show pictures taken in Palestine at the time of General Allenby's occupation. Thomas accompanied the British troops on this expedition.

## Leading Lady in 'The Wayfarer' at Methodist Centenary Celebration

MISS BLANCHE YURKA creates the role of Understanding, leading female part in "The Wayfarer" pageant, which will be presented at the Methodist Centenary celebration in Columbus, O., June 20 to July 13. Henry Herbert, English Shakespearean interpreter, will have the other leading role.

Nearly 1,000 costumed characters will appear in the majestic religious pageant which will be presented every evening during the celebration in the Coliseum at the exposition grounds. The Coliseum boasts of the largest stage in America and seats 8,000 persons. A seated chorus of 1,000 trained voices will augment the effectiveness of the pageant.

## Soloist in 'The Wayfarer' at Methodist Celebration

MISS HELEN NEWITT, dramatic lyric soprano, will be the soprano soloist in "The Wayfarer," the great religious pageant which will be presented as a part of the Methodist Centenary celebration in Columbus, O., June 20 to July 13. Henry Herbert, English Shakespearean interpreter, and Miss Blanche Yurka, will have the leading speaking parts. Viola Ellis, contralto, will be a soloist.

The pageant will be presented on the largest stage in America, in the Coliseum of the exposition grounds, which seats 8,000 persons. Nearly 1,000 costumed characters and a seated chorus of 1,000 trained voices will appear in the pageant.

## LIME NEEDED IN TENNESSEE

Soils Seriously Deficient in This Element According To Experts in Conference

### FINELY GROUND LIMESTONE

Two Tons of Ground Limestone to the Acre is Recommendation Made—Some Farmers Use Heavier Application Than This With Profit, Especially for Legumes.

(By J. C. McAnis, Division of Extension, University of Tennessee, Knoxville.)

At a meeting of representatives of various experiment stations from the southeastern states, at Knoxville, Tennessee, April 29-30, the question of the use of lime on soils of Tennessee was considered.

The agreement was unanimous that the soils of the southeastern states are seriously deficient in lime, so that liming is essential to their most profitable development and permanent improvement.

Suitable agricultural lime materials are high calcium, magnesian and dolomitic limestone; also high grade oyster shells and marl, together with the burnt products (or the chemical equivalent of such) of any of these in the amounts recommended.

The finer the limestone is ground, the greater is its immediate availability. Limestone ground to pass thru a ten-mesh screen, all finer particles included, is recommended for the common application of two tons per acre. Finer very finely pulverized limestone or burnt lime is recommended, where an application of only a few hundred pounds per acre is to be made.

For general use an application of 1 to 2 tons of ground limestone per acre, or one-half that amount of burnt lime, once in rotation of not more than five years was recommended. For alfalfa and permanent pasture, an initial application of double these amounts should be made.

Lime may safely be used at any point in the ordinary farm rotation without serious loss of the material. If applied in connection with tilled crops, its mixture with the soil will be insured. The effects of lime are likely to be in proportion to the thoroughness with which it is mixed with the soil in which the crop roots develop.

Liming is most profitable in those rotations in which legumes are prominent; but, over large areas in these states, especially on the heavier types of soil, liming is profitable for corn, small grains, and grasses.

With soils poor in potash and phosphate, liming gives best results only when supplemented by materials carrying these constituents.

### USE GARDEN ALL THE TIME

Only J. C. Miles, Division of Extension, Knoxville.)

Succession cropping keeps the ground occupied all the time. As soon as one crop matures, harvest it, prepare the soil thoroughly and plant another.

By continuous planting the garden can be made to produce two or three times as much as where only a spring garden is planted. A garden well cared for throughout the year does not let weeds ripen their seeds; after a period of several years the control of weeds in the garden becomes relatively easy.

Very liberal applications of manure should be made. Manure not only supplies plant food, but greatly increases the moisture-holding capacity of the soil. Thirty tons of manure per acre will pay for itself in the returns from the garden. If manure in such large amounts is not available, use 10 to 15 tons of manure and supplement with 800 to 1,000 pounds of high-grade fertilizer.

Careful cultivation will save moisture. Careful cultivation is frequent, once a week; level, no ridges, hills or beds; and shallow, an inch or two in depth.

Plant just enough of each vegetable at one time to supply the demands, and plant often. In this way, a product will be coming out throughout the season that will always be in first class condition for use. Do not follow root crops with root crops, leaf crops with leaf crops, or fruit crops with fruit crops. Do not follow a crop with one of the same family. They take about the same food from the soil, and are subject to attack by the same insects and diseases. Crops with deep root system should follow those with shallow root system.

### ABOUT GOOD FARMING

Most any Tennessee lands will produce from 8 to 10 tons of silage.

Silage can be stored in less space than any other form of roughage.

South Carolina reports more cover crops planted this past year than ever before.

The common method of handling the corn crop on the farm wastes from 20 to 35 per cent of its feeding value. The silo saves almost all the feeding value.

## Land Sale.

Gamaliel Bank  
VS  
Phillip Crowder et al.  
In Chancery Court At Gainesboro, Tennessee.

In obedience to a decree of the Chancery Court, at Gainesboro, made at the April Term, 1919, in the above styled case, I will, on Saturday the 12th day of July, 1919, at Gainesboro, Tenn., in front of the East door of the courthouse, sell to the highest and best bidder the property in said decree described, being a tract of land known as a part of the Dora L. Payne lands, lying and being in the 4th Civil District of Jackson County, Tennessee, adjoining lands of the widow Gaines and others, and described as follows:

Beginning at the head of a cave spring in front of Gaines' residence on Hunting Creek, and running eastwardly up the hill to a rock or a stake is called for in the deed of S. A. Carver to Dora L. Payne, this making a conditional line from the spring to said rock or stake on the R. V. Brooks and Alex Hix line; thence with the old Carver line around the Hill with Phillip Crowder's line to the beginning, containing 8 acres, more or less.

### Terms Of Sale

Sale will be made within legal hours for cash, to satisfy a judgement rendered against Phillip Crowder in favor of Gamaliel Bank, at the April term of this court, 1919, for \$83.72 with interest and costs of the above styled cause. This 4th day of June, 1919.

W. F. Sadler, Clerk and Commissioner.

H. Grady Gore, Solicitor.

### NON-RESIDENT NOTICE

M. M. Allen, Exr. et al.  
VS

Sallie E. Allen et al

In Chancery Court At Gainesboro, Tenn.

It appearing from an affidavit filed in this cause that defendants, Hobert Allen, Luther Jackson and Edgar Jackson are nonresidents of the State of Tennessee, and cannot be served with the ordinary process of law: It is ordered that said defendants enter their appearance herein, before the Clerk and Master, at his office in the courthouse in Gainesboro, Tenn., on or before the first Monday in July, 1919, next, and plead, answer, or demur to complainant's bill, amended and supplemental bill, and amendment to original bill, or the same will be taken for confessed as to them, and set for hearing ex parte; and that a copy of this order be published for consecutive weeks in the Jackson County Sentinel, a newspaper published in Gainesboro, Tenn.

This 2nd day of June, 1919.

W. F. Sadler, Clerk and Master.

## It Helps!

There can be no doubt as to the merit of Cardui, the woman's tonic, in the treatment of many troubles peculiar to women. The thousands of women who have been helped by Cardui in the past 40 years, is conclusive proof that it is a good medicine for women who suffer. It should help you, too.

### Take

# CARDUI

### The Woman's Tonic

Miss N. E. Varner, of Hixson, Tenn., writes: "I was pained through the ... my back and sides were terrible, and my suffering indescribable. I can't tell just how and where I hurt, about all over, I think ... I began Cardui, and my pains grew less and less, until I was cured. I am remarkably strong for a woman 64 years of age. I do all my housework. Try Cardui, today. E-76"

### Sumner County Farms.

Do you want a Sumner County Blue Grass Farm. We have some of the best farms in Sumner County listed, and that means the best in the world. Write us and make appointment to look them over.

## THEY WANT A CHANCE, NOT CHARITY; HELP UNCLE SAM GIVE THEM A START

Two crippled soldiers being taught telegraphy in one of the reconstruction hospitals maintained by the government.

"We don't want charity; give us a chance!"

From every reconstruction hospital in the country comes this insistent plea from thousands of wounded soldiers. Although shattered in body, the spirit that sustained them at Chateau Thierry, Argonne and Metz remains unbroken.

They do not want something for nothing; they are willing to work for all they get.

The Government has inaugurated reconstruction institutions at various points throughout the country where the blind, the armless and legless are taught useful trades and professions.

While the soldier and sailor is undergoing vocational training, he is supported by the Government. Should he have dependents, they also receive aid.

Five possible steps follow a wounded soldier's decision to take the vocational training course. They are: decision by the disabled man as to his course of training; the training itself, which is to fit him for a definite occupation; trial employment in that occupation; placement after trial in a definite job, and follow-up work to safeguard his interests.

Within the next few months it is expected that several thousand disabled soldiers will have sufficiently recovered from their wounds to take the Government's vocational training course. Industrial schools and colleges throughout the country are being utilized so that most of the men are being trained close to their homes.

Thirty-one per cent of the total now in training are taking commercial

courses; seventeen per cent are learning the various phases of agriculture, farm management, poultry raising and stock breeding. Others are studying law, medicine, banking, and some are being trained in engineering, telegraphy, tailoring, window trimming and designing, accounting, store management, machine shop practice, meat inspection, traffic management, and so on.

It is not merely the men who have lost their arms or legs, or who have been blinded, that the Government is retraining and restoring to self-supporting activity. Aid is offered to every man who is entitled to Government compensation. Thousands of men suffering from tuberculosis, bronchitis, heart and nervous diseases, may be unable to re-enter their former occupations.

What better assurance to the soldiers could be given than that uttered by President Wilson when he said:

"The Nation has no more solemn obligation than healing the hurts of our wounded and restoring our disabled men to civil life and opportunity. The Government recognizes this, and the fulfillment is going forward fully and generously."

"IT IS NOT A CHARITY!"

"It is merely the payment of a debt of honor which the United States of America accepted when it selected these men, and took them in their health and strength to fight the battles of the nation. They have fought the good fight, they have kept the faith and they have won. Now we keep faith with them, and every citizen's endorsement on the general obligation."

## Y. W. C. A. Industrial Courses in Buenos Aires
